The Pathfinder is the National Geospatial-Intelligence Agency publication that promotes public awareness and understanding of geospatial intelligence. The Pathfinder is an authorized Department of Defense publication for members of the Department of Defense. Contents of this publication are not necessarily the official view of, or endorsed by, the U.S. government, Department of Defense or NGA. Articles in the Pathfinder may be reproduced in whole or in part without permission, unless stated otherwise. If reproduced, credit the author and the "National Geospatial-Intelligence Agency, the Pathfinder magazine." Any reproduction of graphics, photographs and imagery is subject to the original copyright.

### ON THE COVER

NGA wants to put the power of geospatial intelligence in your hands. We want to make it easier for our users—NGA analysts, national policymakers, warfighters, Intelligence Community partners and first responders—to have the GEOINT they want when and where they need it. *Cover design by Ronald Kee.*
