

AIR & SPACE

Smithsonian

In Germany, techs view a model of Rosetta, the spacecraft on its way to visit a comet.

Features

22 The Spacewalk That Almost Killed Him

A spacesuit is the only thing between an astronaut and death.

BY TONY REICHHARDT

30 Cops and Robots

Will drones be the next patrol cars?

BY MARK BETANCOURT

34 A Slow Boat to Space

Launching one pound to orbit: \$10,000. Taking a kid's science project to 100,000 feet: priceless.

BY MARK KARPEL

40 Comet Chaser

After 10 years of bouncing around the solar system, Rosetta is closing in on the comet it's been stalking.

BY GUY GUGLIOTTA

44 I WAS THERE

Solo Around the World

Fifty years later, Geraldine Mock remembers the highlights of the longest flight she ever made.

INTERVIEWED BY AMY SAUNDERS

46 Old, Bold Pilots

Hard scrapes and miracles from a cumulative 100,000 hours of flying.

BY STEPHEN JOINER

54 What fighter pilot used gum on his windscreen as a gunsight?

Find out in a new book of air and space trivia.

58 CANCELLED The Puzzle of Vertical Takeoff

Hope for a jump jet springs eternal.

BY CHAD SLATTERY

60 The Most Talented Aviation Pioneer You've Never Heard Of

And how he outdid the Wrights.

BY PAUL GLENSHAW

ON THE COVER It's rare, but last July it happened. So we asked artist Paul DiMare to imagine the moment when a spacewalker realizes he's in trouble. Story, page 22.
