SPACE

 **22 Tiangong-2** and Shenzhou-11 are verifying technology for China's planned space station

24 ESA and Roscosmos push Mars exploration technologies with ExoMars and follow-on rover

26 Antares returns to flight and Orbital ATK plans to use Cygnus cargo carrier as test laboratory

62 CST-100 crew module is delayed, but Boeing still plans to fly astronauts to space station in 2018

DEFENSE

28 New battlespace will demand short-takeoff, low-observable refueling aircraft, Lockheed says

32 Poland's abandonment of a helicopter tender with Airbus has sparked a diplomatic spat between Paris and Warsaw.

30 Royal Navy exercise provides experience with autonomous air, surface and underwater vehicles

10

56 Bell-Boeing is testing an engine-protecting, barrier-type air filtration system for the V-22

57 Norway unveils plans to participate in the proposed F-35 joint buy and requests 12 more of the fighters

58 Japan and Britain are assessing the likely performance of an AESA-equipped Meteor missile

59 Japan's defense ministry wants a hefty, stealthy, indigenous fighter with long endurance for 2030s

60 U.S. bomber chief advocates reengining and modernizing B-52 to extend the fleet's life to 2050

ROTORCRAFT

32 Poland reveals purchase of Sikorsky Black Hawks after withdrawing from Airbus deal

32 Airbus is working to restore confidence in EC225/H225 after lift of the helo's second grounding

TECHNOLOGY

34 First fan set designed to reduce fuel burn through boundary-layer ingestion heads for November tests

52 British company envisions low-cost, on-demand production of titanium to expand aerospace applications

ON THE COVER

The Dassault Falcon 8X and other new products are giving hope to business aircraft manufacturers that they will be able to pull out of market doldrums soon (see page 40). Dassault Aviation photo by Anthony Pecchi. Also in this issue: China's latest human space mission and its path forward (page 22) • A 50-seat supersonic jet? (page 54) • Military tankers: a special report (pages 28 and 67).

Aviation Week publishes a digital edition every week. Read it at AviationWeek.com/awst and on our app.

44

COMMERCIAL AVIATION

- 36 Singapore Airlines** improves cooperation between its low-cost carriers to expand group fleet
- 38 Leasing sector**, about half of the Airbus-Boeing customer base, is undergoing rapid consolidation
- 39 European regional** airlines are optimistic about continued growth, and OEMs reap benefits

24

BUSINESS AVIATION

- 40 In a market** besieged by negative pressures, bizjet makers lower expectations—and production
- 42 Business jet** manufacturers are counting on new products to stimulate stagnant market

G500 PILOT REPORT

- 44 Gulfstream's** all-new large-cabin bizjet offers fuel efficiency, flight-deck sophistication and low noise

AEROSPACE IN CHINA

- 50 Avic is developing** a wide range of large civil aircraft, from turboprop airliner to helicopter to flying boat
- 51 Comcac C919** flight-testing slips to 2017 and first delivery beyond 2019, but its engineering wins praise

55

AERONAUTICAL ENGINEERING

- 54 Silicon Valley-**backed startup looks to be first to market with 50-seat supersonic trijet airliner
- 55 Aerion, Spike** and NASA are also working to bring back the supersonic transport

CONNECTED AEROSPACE: AVIONICS

- 64 New service** economy and connectivity will make the future flight deck more like a smartphone

CONNECTED AEROSPACE: CYBERSECURITY

- 65 Airframers** and airlines aim to protect against cyberweaknesses internally and in supply chain
- 66 The Pentagon** is cyberhardening software and equipment through new designs as well as upgrades

TANKERS

- 67 Boeing hopes** to put difficulties behind it with U.S. Air Force green light for KC-46A production
- 68 Operators of A330** Multi-Role Tanker Transports consider further broadening its mission
- 69 Airbus seeks** to introduce automation into the boom refueling process to boost efficiency

- 70 Russia expects** to assemble new tanker prototype based on IL-76 transport before year-end

VIEWPOINT

- 74 China's air force** is giving its pilots more autonomy to prepare them better for dynamic combat
