**Cover**

Today's armed forces face an increasingly complex risk scenario. In the last decade, threats have multiplied in both the physical and cyber area. Soldier holds a FNScar with EOTech optics and Surefire lights plus Brugger & Thomet suppressor. (Photo and Graphic: Redrum)

Small insert on cover depicts a 'Black Spiders' JF-17 flying over one of Pakistan's highest peaks, Nanga Parbat, seen here with a PL-5EII (top) and PL-12/SD-10 (bottom). (Photo: PAF)

The Combat Aircraft Special cover on page 45 shows one of the two JF-17s painted in the colours of the Pakistani flag. (Photo: Alan Warnes)

Small insert in contents shows Rheinmetall's LYNX (left, back) and ARTEC's BOXER (right, front), both with Rheinmetall's LANCE turret armed with a 35mm automatic cannon. (Photo: Rheinmetall)

The last page shows the new C-130H/L-382 full-mission simulator that CAE USA has expanded in its C-130 training centre located in Tampa, FL/USA. The new CAE-built simulator features the Rockwell Collins integrated Flight2 glass cockpit avionics system. (Photo: CAE)
